

Andrew's Tribute Show to Soul & Motown - Big Beat Entertainment

A vibrant and energetic Soul & Motown singer, who enjoys performing classic Soul songs, with lots of heart and emotions!

Having spent 10 years working with various Soul bands and solo artistes, he decided to launch Soul & Motown Nights at a venue, which has become a successful and popular event. This developed into Andrew going out as Randell's Soul & Motown Experience in 2006.

After this there was no looking back and his show went from strength to strength. He uses high quality backing tracks, sound and lighting to provide a brilliant show. He has since toured with The Three Degrees and has worked with the No1 Drifter's tribute in the UK – Soul, Kinda Wonderful.

His solo show is fantastic and is suitable for all kinds of venues and events.
