

El Loco - Big Beat Entertainment

Award-winning artist, El Loco combines the art of comedy and mime and what follows is a comedy show unlike anything you will have ever witnessed before. He has several shows now but there are 3 main ones – The Dentist Chair, Radio Grand Café.

The Dentist Chair – set around a bizarre dentist chair and a radio that plays over 300 snippets of music, voice over's and sound effects from the last 50 years. El Loco interacts with all of them.

Radio Grande Café - the theme of the show is the forgetful waiter setting his bistro table for the arrival of his "special guest", using the arts of comedy magic, mime and mayhem. What can go wrong along the way does and with hilarious reactions from the audience. Add into the mix a "Grand Art Deco Radio" that has more gadgets than a 007 movie!

Funny Bones – you can combine the cabaret of Radio Grand Café with El Loco's alter ego, the spoof waiter, Funny Bones! He can mix and mingle with your guests on arrival and then when your guests are seated for dinner, Funny Bones will bring his comedy capers between each course. After dinner Funny Bones transforms into his main stage character, El Loco.

All the shows are small enough to fit into any venue, yet big enough to play to a 2,000 capacity theatre audience. It's also portable enough to travel to Marrakech for one night yet compact enough to perform on a River Thames cruiser in London. If you want something different for your event then look no further!
