

# Graham Sargeant

## - Big Beat Entertainment

**Making sure your child has a great party is very important, after all, they will only have that birthday one. Graham's children's show is designed for maximum participation by the kids and the birthday child will always be a star.**

As a professional children's entertainer Graham is expert at entertaining and performing for kids, this type of magic requires certain skills which not every magician can provide. Children are fantastic to perform magic for and deserve your best show every time. Graham can offer custom-designed birthday party packages that may include games/activities, shows and if you require even decorations and goody bags. Shows are designed to play in typical birthday party venues such as homes, function rooms or restaurants without the need for a stage or a large performance space.

Graham prides himself on being a flexible performer and will ensure he provides the 'FME' for any special event...that's Full Magician Experience.

Graham can provide a Christmas themed magic show suitable for children aged 3 to around 9 years old, with plenty of participation and plenty of Santa, snowman and other seasonal feeling presentations of magic. Great fun for children and really helps build that special Christmas feel. As always, he can provide balloon modelling and even a full 2 hour party package with musical fun and games too. Great for schools, after school clubs, nurseries, club and staff parties....in fact anywhere you want Christmas to begin!

Don't forget you can add a magician to the mix of your adult Christmas bash too, fantastic for close-up table magic during a meal, pre-meal reception or a fun cabaret show....

Various options are available in addition to a first class magic show, musical games and balloon modelling.

Book Graham sergeant for that magical show for all ages throughout the year. Let the magic begin!
