

Party Central - Big Beat Entertainment

Top function band, available as either a 5-piece party band, an unplugged trio and an 80's tribute.

All members are experienced musicians and love nothing more than to share their passion for music. They met whilst supporting local jam nights and decided to join musical forces and the rest is history. With very different musical backgrounds the band focused on choosing the perfect blend of party songs to give the crowd an uplifting evening, which also comes with laughter and a comfortable distinct Party Central stage magic.

They have an extensive and varied set list for all three of their options, making them the perfect act for any occasion or venue. Performing songs from 60's to present day chart toppers.
