

The Acoustic Experiment - Big Beat Entertainment

The Acoustic experiment combines 2 great musicians to form an act for live gigs, where space could be an issue.

Al & Ollie's setup is a guitar and piano and both do vocals. They can also offer the addition of keyboards parts on songs so you have the sound of strings, synth and bass.

Playing covers from 60's to present they have built up a fantastic repertoire that's suitable for any event. They are equally happy to play background music as well as taking the main stage, so can cover for example a full day's entertainment for a wedding.

They are also in a band called Unit 4 if an acoustic duo isn't what you are looking for.

Sample set list
