

# The Cavernites

## - Big Beat Entertainment

**The Cavernites are more than just a tribute show, they are the closest you can get to going back to Beatlemania!**

A professional band from Liverpool who perform a show that recreates the vibrant sounds of The Beatles touring years 1962-1966. They take the audience on a Magical Musical History Tour, through one of the greatest musical decades of all time.

The Cavernites perform completely live, presenting an energetic, vibrant show, recreating the atmosphere and power of a live Beatles concert. They use original instruments from the period and the look is completed by the use of original stage clothes.

The Cavernites have performed their unique tribute at major festivals both here in the UK and abroad. They have been regular performers at the Cavern Club and other Liverpool venues. Suitable for all kinds of events and occasions, or even just a night your customers won't forget in a hurry.
